LOCATION ACTIVITY REPORTS

How this report is built

Detail pages follow for all 3 High-alert locations, plus the 38 highest-scoring Elevated locations to make a top 41. The rest appear on the interactive map.

HOW LOCATIONS ARE RANKED WITHIN CATEGORY

Locations are ranked by tier, then nearest tracked-union petition, then match count. Tier is point-weighted: a driver (tracked union + your industry) counts most, then a union-only match, then an industry-only match, plus tracked-union organizing-type charges.

Petitions and charges are pulled from the period's complete NLRB export within each location's radius. Charges never set the tier unless they are a tracked-union filing an organizing-type allegation.

HOW THE CONCERN LEVEL IS SET

Four factors move a location up the scale: how **close** the activity is, how **recent** it is, whether it involves a **union you track**, and whether it hits a **comparable industry**. Each matched petition and qualifying charge adds points; a driver counts most.

A driver inside 5 miles, or a cluster of 3+ drivers, forces High regardless of point total. Otherwise tier follows point total — each location's own entry in the ranked list shows its score and which factors hit.

Charges against employers (CA) round out the picture but never set the tier alone unless a charge is both from a union you track and an organizing-type allegation (8(a)(1)/(3)); bargaining charges (8(a)(5)) and individual filings do not. Distances are straight-line estimates from each location's ZIP centroid.

High-alert petitions match your target industry and/or a union you track and are strong indications of potential activity near your locations. Distances are straight-line estimates from each ZIP centroid.

Charges against employers nearby

CONTEXT, SEP 28 – OCT 4, 2026

Charges against employers filed from a union you track are an additional signal. We move the level based on organizing-type allegations like 8(a)(1) and (3); we ignore bargaining charges and individual filings.

13 CA charges in the radius, 4 organizing-type (8(a)(1)/(3)), 9 from a union you track, 1 escalator (tracked union + organizing).

Charges against employers nearby

CONTEXT, SEP 28 – OCT 4, 2026

Charges against employers filed from a union you track are an additional signal. We move the level based on organizing-type allegations like 8(a)(1) and (3); we ignore bargaining charges and individual filings.

3 CA charges in the radius, 2 organizing-type (8(a)(1)/(3)).

EMPLOYER	CITY	UNION	FILED	DISTANCE
Washington Immigrant Solidarity Network	Seattle	—	Sep 30, 2026	14.4 mi
Washington Immigrant Solidarity Network	Seattle	—	Sep 30, 2026	14.4 mi

+ 1 more CA charge in the radius, individual or non-tracked-union filings, rolled up as context.
